

000-111

IBM

IBM Distributed Systems Storage Solutions Version 7

OfficialCerts.com is a reputable IT certification examination guide, study guides and audio exam provider. We ensure that you pass your 000-111 exam in first attempt and also get high scores to acquire IBM certification.

If you use OfficialCerts 000-111 Certification questions and answers, you will experience actual 000-111 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our IBM exam prep covers over 95% of the questions and answers that may be appeared in your 000-111 exam. Every point from pass4sure 000-111 PDF, 000-111 review will help you take IBM 000-111 exam much easier and become IBM certified.

Here's what you can expect from the OfficialCerts IBM 000-111 course:

- * Up-to-Date IBM 000-111 questions as experienced in the real exam.*
- * 100% correct IBM 000-111 answers you simply can't find in other 000-111 courses.*
- * All of our tests are easy to download. Your file will be saved as a 000-111 PDF.*
- * IBM 000-111 brain dump free content featuring the real 000-111 test questions.*

IBM 000-111 certification exam is of core importance both in your Professional life and IBM certification path. With IBM certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-111 exam training are an absolute favorite in the industry. You will pass IBM 000-111 certification test and career opportunities will be open for you.

Question: 1

In addition to IBM System Storage DS3000 series, which devices are customer installable?

- A. IBM System Storage DS4000 and IBM System Storage TS3500
- B. IBM System Storage DS4000 and IBM System Storage TS3310
- C. IBM SAN Volume Controller and IBM System Storage TS3310
- D. IBM System Storage DS5000 and IBM System Storage TS3500

Answer: B

Question: 2

A customer has an IBM System Storage DS4800 and needs to add more disk drives to the unit. There is no record of the configuration for this machine. How can the configuration be retrieved so an upgrade can be configured?

- A. Manually enter system information into BaseEdit of the eConfig program, and provide proof of purchase
- B. Use the IBM Standalone Systems Configuration Tool (SSCT) to recreate the configuration
- C. Have the customer contact the IBM AAS coordinator to retrieve a copy of the original configuration
- D. Have the customer send the DS4000 configuration file

Answer: D

Question: 3

A customer is concerned that some of the hardware and software required to complete the installation of a new solution is missing. Other than disk storage, what are the minimum requirements for getting a SAN Volume Controller installed and operational?

- A. One pair of SAN Volume Controller nodes, two host systems, one IBM System Storage Productivity Center (SSPC)
- B. One pair of SAN Volume Controller nodes, two uninterruptible power supply units, two host systems, dedicated SAN switch
- C. One pair of SAN Volume Controller nodes, two uninterruptible power supply units, and one IBM System Storage Productivity Center (SSPC) or master console
- D. Two pairs of SAN Volume Controller nodes, four un-interruptible power supply units, and one IBM System Storage Productivity Center (SSPC) or master console

Answer: C

Question: 4

A customer has three Microsoft Windows 2008 servers, each with 150 GB of data. It is recommended that an IBM Tivoli Storage Manager (TSM) disk pool of storage be used for daily backups. Assuming a 4% change rate with daily migration to tape, what is the minimum amount of disk space that needs to be added to the IBM TSM server?

- A. 12 GB
- B. 40 GB
- C. 78 GB
- D. 150 GB

Answer: B

Question: 5

What do you do in order to schedule an expert Pre-Sale Technical and Deliver Assessment (TDA)?

- A. Contact your local Solution Assurance Quality representative
- B. Contact your account representative
- C. Contact the product support group for the products being installed
- D. Contact the hardware support center

Answer: A

Question: 6

The client already has LTO2 and LTO3 tape drives and cartridges, but is concerned that LTO4 drives are too expensive. The client is currently favoring SDLT as a solution. What is the recommended response to this client?

- A. Quantum manufactures LTO4 as well as SDLT.
- B. LTO4 can process the client's existing tape cartridges.
- C. IBM announced LTO4 in April 2007.
- D. SDLT is a single-hub cartridge technology.

Answer: B

Question: 7

What needs to be done to get the datapath failover feature of an IBM System Storage TS3310 operational?

- A. Set up SAN zoning that two drives can connect to the same HBA at the server
- B. Set up SAN zoning and install multi-path software at the server
- C. Set up SAN zoning so that two HBAs from a server can connect to the same drive
- D. Set up SAN zoning and enable the alternate path using the TS3310 GUI

Answer: C

Question: 8

What is the advantage of IBM System Storage DS4000 DACstore over EMC CLARiiON disk systems?

- A. DACstore increases cache utilization ratio.
- B. DACstore allows twice as many disk drive modules than EMC CLARiiON.
- C. DACstore allows RAID ranks to be moved from one DS4000 system to another.
- D. DACstore is used across all DS4000 product models.

Answer: C

Question: 9

An IT department will be moving an application to mission critical status with a server cluster for a high availability environment. The current DS4300 is direct-attached to an IBM System x 3850 server. Which option is the most cost efficient?

- A. IBM System Storage DS3200 with two SAN32B switches
- B. IBM System Storage DS4700 with two SAN32B switches
- C. IBM System Storage DS4800 with two SAN32B switches
- D. IBM System Storage N7900 with two SAN32B switches

Answer: B

Question: 10

Which command can be used to confirm the status of the destination volume for a SnapMirror pair in an N series disk system?

- A. snapcheck status
- B. vol status
- C. volstat -snap
- D. status vol

Answer: B

Question: 11

A client is interested in IBM System Storage N series for Microsoft Exchange 2007 applications. What is the recommended protocol that provides the most cost effective solution?

- A. Common Internet File System (CIFS)
- B. Network File System (NFS)
- C. Internet SCSI (iSCSI)
- D. Fibre Channel Protocol (FCP)

Answer: C

Question: 12

Which advantage does the IBM N series offer over FCP-only disk system solutions for a VMware systems environment?

- A. Fibre Channel Protocol runs in full-duplex mode.
- B. N series includes iSCSI support at no additional charge.
- C. VMware uses NFS not CIFS protocol for Windows virtual guests.
- D. VMware offers N-port ID virtualization (NPIV).

Answer: B

Question: 13

A customer has the following configuration: -- four IBM System x servers -- one SAN FC switch -- one IBM TotalStorage DS4400 The customer wants immediate data availability after a disaster. Its remote site is 2 km (1.24 miles) away. Which solution meets the customer's requirements?

- A. Install an IBM System Storage TS3200 tape library at the remote location, a second SAN FC switch, and Tivoli Storage Manager software
- B. Install an IBM System Storage TS3500 tape library with FC drives at a remote location, a second SAN FC switch, and Tivoli Storage Manager software
- C. Install an IBM System Storage DS4700 at a remote location, a second SAN FC switch, and remote mirror software
- D. Install an IBM System Storage DS6800 at a remote location, a second SAN FC switch, and Metro Mirror software

Answer: C

Question: 14

A storage specialist is proposing a solution consisting of an IBM System Storage TS3200 Tape Library and a SAN Volume Controller, both of which are being added to a customer's existing SAN environment for the first time. What should be completed before the proposal is presented to the customer?

OfficialCerts.com Certification Exam Full Version Features;

- Verified answers researched by industry experts.
- Exams **updated** on regular basis.
- Questions, Answers are downloadable in **PDF** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
