

000-979

IBM

Power Systems with POWER7 and IBM I Technical Sales Skills - v1

OfficialCerts.com is a reputable IT certification examination guide, study guides and audio exam provider. We ensure that you pass your 000-979 exam in first attempt and also get high scores to acquire IBM certification.

If you use OfficialCerts 000-979 Certification questions and answers, you will experience actual 000-979 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our IBM exam prep covers over 95% of the questions and answers that may be appeared in your 000-979 exam. Every point from pass4sure 000-979 PDF, 000-979 review will help you take IBM 000-979 exam much easier and become IBM certified.

Here's what you can expect from the OfficialCerts IBM 000-979 course:

- * Up-to-Date IBM 000-979 questions as experienced in the real exam.*
- * 100% correct IBM 000-979 answers you simply can't find in other 000-979 courses.*
- * All of our tests are easy to download. Your file will be saved as a 000-979 PDF.*
- * IBM 000-979 brain dump free content featuring the real 000-979 test questions.*

IBM 000-979 certification exam is of core importance both in your Professional life and IBM certification path. With IBM certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-979 exam training are an absolute favorite in the industry. You will pass IBM 000-979 certification test and career opportunities will be open for you.

QUESTION: 1

For what situation must a customer be prepared when using encrypted ASPs?

- A. Backups of the encrypted ASP take longer to process.
- B. Backups require a tape device which supports encryption.
- C. Tape media used for backups of encrypted data must be of a certain type.
- D. Data stored in an encrypted ASP consume 10-20% more space than in a non-encrypted ASP.

Answer: B

QUESTION: 2

An IBM i customer needs highly available disk storage on their new Power 750. The following requirements have been determined:

Loop level redundant RAID-5

No disk in the CEC

Six 70GB Solid State Disks (SSDs)

Sixty six 284GB SAS disks (large form factor)

What design elements must be considered?

- A. SSD requires at least 1.5MB write cache
- B. SSD and traditional disks must be in separate loops
- C. SSD and traditional disks must be in different drawers
- D. SSD and traditional disks must be on different controllers

Answer: D

QUESTION: 3

A client has expressed an interest in a new POWER7 system, and has also expressed concern about application availability. They need zero data loss and an outage window of less than 15 minutes. Which of the following will assure the most redundancy and quickest recovery time?

- A. Configure an iASP and place 2 system units on the same I/O loop.
- B. Configure a duplicate system in a second location with Cross-SiteMirroring between the systems.
- C. Configure a duplicate system in a second location with asynchronous remote journaling between the systems.
- D. Configure SAN storage and place the flash copy disk in a second location connected to a second system unit.

Answer: B

QUESTION: 4

A customer running IBM i 6.1 on a system with a POWER6 processor wants a small guest IBM i partition to verify upcoming changes to an application. Which of the following is required to create this partition?

- A. Available disk space on hosting partition
- B. Additional license keys for hosted partition
- C. Licensed program 5761-SS1 option 68, IBM i Guest Enablement
- D. An available port on the Host Ethernet Adapter for LAN console

Answer: A

QUESTION: 5

A customer has a 4-core Power 720 with 4 PCIe adapters in the CEC, and wants to add another adapter to the system. Which of the following must be considered?

- A. An expansion drawer must be added
- B. It can be placed in an unused GX slot
- C. A low-profile adapter must be selected
- D. The 2-slot PCIe expansion riser must be ordered

Answer: C

QUESTION: 6

A customer with a non-partitioned Power Systems server plans to add three additional LPARs, all running IBM i. No processor activations are needed for these new workloads. The only additional software required is WebSphere Application Server (WAS), WebSphere Commerce suite, and Tivoli applications, each running in their own partition. How many additional IBM i base license authorizations are needed for the new partitions?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

QUESTION: 7

In a SAN environment, which disk protection method provides the most resiliency against failure?

- A. RAID-0 (striping)
- B. RAID-1 (mirroring)
- C. RAID-5 (device parity)
- D. RAID-10 (mirrored arrays)

Answer: D

QUESTION: 8

A client has sent a current system configuration, but the listing shows several items with a question mark (?) next to them. What does this indicate?

- A. The hardware was not contacted on the last IPL of the system.
- B. The hardware is not supported at the current level of IBM i.
- C. The hardware was not detected at the time the rack configuration was printed.
- D. The hardware listed does not have current microcode levels uploaded and installed.

Answer: C

QUESTION: 9

A customer has developed a new Domino application and is considering deploying it on one or more Power 720 systems which run IBM i and utilize external storage. How can the amount of memory and the number of disk arms required to support the application be estimated?

- A. Use the IBM Systems Workload Estimator to do a system sizing.
- B. Collect Domino STATREP data and process it using DiskMagic(R).
- C. Use Tivoli's TADDM (Tivoli Application Dependency Discovery Manager) to size the system.
- D. Import performance collection data into eConfig for correct disk arm and memory configuration.

Answer: D

QUESTION: 10

When planning to encrypt an independent ASP (iASP), what must be considered?

OfficialCerts.com Certification Exam Full Version Features;

- Verified answers researched by industry experts.
- Exams **updated** on regular basis.
- Questions, Answers are downloadable in **PDF** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
