What are three major trends that fuel the demand for security? (Choose three.)

A. mobility
B. collaboration
C. bandwidth optimization
D. cloud
E. IT standardization

Answer: A, B, D

QUESTION: 2
What does not need to be considered in regard to the customer's workflow?

A. how the customer securely accesses the online software solutions
B. the number of antivirus products that are in use on the customer's network
C. how the service partner can securely use outsourced engineers
D. how the service engineer accesses customer and service company information

Answer: B

QUESTION: 3
Which three statements accurately describe the evolution of the workplace and its impact on security? (Choose three.)

A. Mobility causes location borders to shift.
B. Cloud services cause end-user locations to shift.
C. Cloud services cause application borders to shift.
D. IT consumerization causes location borders to shift.
E. IT consumerization causes device borders to shift.

Answer: A, B, E

QUESTION: 4
Which two statements best describe the challenges that customers encounter when providing services in a borderless world? (Choose two.)

A. how to secure standardized end-user equipment
B. how to manage security
C. how to access cloud applications and data securely
D. how to secure access within the company network
E. the type of WAN to deploy

Answer: B, C

QUESTION: 5
What are two security effects of BYOD? (Choose two.)

A. TCO is reduced because employees use their privately owned devices.
B. Corporate content must be secured on devices that are owned by employees.
C. Numerous new devices must be securely integrated into the corporate infrastructure.
D. Corporate users expect the same look and feel when using their own devices.

Answer: B, C

QUESTION: 6
Which statement best describes the impact of cloud applications?

A. Moving applications to the cloud simplifies security.
B. Access to cloud applications is only possible from dedicated endpoints.
C. There is no need to inspect data coming from the cloud for malicious content.
D. Using cloud services causes loss of control, which needs to be addressed by additional security measures.

Answer: D

QUESTION: 7
Which statement is true regarding the security of IPv6?

A. IPsec is an integrated part of IPv6 and, therefore, all IP-related security threats are eliminated when using an IPv6-only network.
B. Existing IPv4 firewalls can secure IPv6 traffic if IPv6 is tunneled over IPv4.
C. Existing IPv4 firewalls can secure IPv6 traffic unless IPv6 is tunneled over IPv4.

D. Endpoints that tunnel IPv6 over IPv4 can traverse firewalls without inspection of the IPv6 traffic.

Answer: D

QUESTION: 8
What is a major challenge in the retail market?
