With IBM certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM LOT-755 exam training are an absolute favorite in the industry. You will pass IBM LOT-755 certification test and career opportunities will be open for you.

QUESTION: 1

Erika is configuring the initial Domino server for her organization. Her goal is to restrict users from modifying any attributes of the Workstation ECL, but she is yet to create the Administration ECL for the domain. What settings will the client receive until an Administration ECL is created?

- A. The Workstation ECL cannot be created and a warning is issued upon client setup to that effect. The client configuration will not continue until a default Administration ECL is defined
- B. The Workstation ECL remains blank until an Administration ECL for the domain is created and saved
- C. The Workstation ECL is created with default settings that define the Administration ECL until one is manually created and saved
- D. The Workstation ECL is created with default settings that are built into the Notes client

Answer: D

QUESTION: 2

If active content on a Lotus Notes client attempts an action that is not enabled for the signer, or if the signer is not listed in the ECL, Notes generates which of the following?

- A. NSR
- B. DAA
- C. ESA
- D. NCA

Answer: C

QUESTION: 3

Elliott has proceeded to enable extended access to the Domino Directory in his domain. However, after enabling extended access he found that anonymous searches via LDAP has stopped functioning. Which of the following describes the cause of this issue?

- A. You may not enable extended access for a Domino Directory on any server running LDAP or HTTP
- B. Anonymous access via LDAP is not supported while extended access is enabled and Anonymous must be set to 'No Access'
- C. Enabling extended access disables access to Domino over the LDAP protocol

D. Anonymous must be provided Reader of higher rights in the Domino Directory ACL manually

Answer: B

QUESTION: 4

Gayle was responsible for creating security policy settings documents for her organization. After Gayle moved to a different company, her former organization was having trouble with policies being applied in unexpected areas and not working properly in other areas of the organization. You are now responsible for sorting out the structure of the security policy settings. Which of the following represents the order in which a policy setting would be applied to a user in order, from the lowest to highest priority?

- A. Exception policy, Explicit policy with setting from parent, Explicit policy with setting from parent Organization
- B. Explicit policy with enforced settings from parent, Organizational policy with enforced settings and Exception policy
- C. Organizational policy with settings from child, Organization policy with setting from parent and Explicit policy with setting from child
- D. Organizational Policy with settings from parent, Explicit policy with settings from parent and Explicit policy with enforced settings from parent

Answer: D

QUESTION: 5

Ben, the Domino administrator, has configured SSL on his Domino server. Both HTTP and SMTP function correctly. However, IMAP users with Outlook clients cannot utilize the SSL certificate. Which of the following describes the reason?

- A. SSL requires an additional certificate for IMAP
- B. SSL for IMAP is not enabled on the ports tab of the server document
- C. SSL does not apply to the IMAP protocol
- D. SSL does not work Outlook over the IMAP protocol, only for Domino Access for Microsoft Outlook

Answer: B

QUESTION: 6

Scott has decided that the Domino server he administrates should require client certificates across SSL for web access. What effect does enabling this option provide?

- A. It will identify Internet users
- B. It will track the DNS name a client uses when accessing the Domino server
- C. It will require users to enter their full hierarchical name for authentication
- D. It will force users to enter a more secure Internet password

Answer: A

QUESTION: 7

A major manufacturer of automobiles announced that it was going to lay off 2000 employees. The Domino administrator configured a time-stamped list identifying rescinded Internet certificates. What is the name for this list?

- A. Certificate Revocation List
- B. Issued Certificate List
- C. Certificate Retract List
- D. Terminated Certificate List

Answer: A

QUESTION: 8

A new corporate security policy has been mandated for all users on Lotus Notes, that passwords must be changed every 45 days. You are responsible for enforcing the new security policy. After creating the necessary security policy document that applies to the entire Organization, some users are getting locked out of their Notes id files after the first 45 day cycle occurs. Which of the following best explains the reason for users getting locked out of their id files?

- A. The users' Internet password does not match their Notes id password and security policies that enforce password change must also have the Internet and Notes password synchronized
- B. The grace period is set to the default for the security policy document and users have passed the default
- C. The users affected have their user id files placed on Smartcards and a PIN number assigned

D. The users' new password did not meet the password length criteria assigned by the security policy

Answer: C

QUESTION: 9

The password key width of a Notes id file is used to control which of the following?

- A. The minimum number of characters that a user must provide for a new password
- B. The minimum quality that a user must match for a new password
- C. The length of time an id is valid before recertification is required
- D. The encryption key that protects the Notes keys that are stored in the user ID

Answer: D

QUESTION: 10

The size of a SSL session key is determined by which of the following?

- A. The cipher being used
- B. The user password strength
- C. The expiration of the public key presented by the connecting host
- D. The creation date of the SSL certificate

Answer: A

QUESTION: 11

Kathleen has generated an ECL refresh for user's workstations. Which of the following entries must be entered into the Administration ECL to allow users to export data and allow access to network resources under their own name?

- A. <ECLOwner>
- B. <WorkstationManager>
- C. <OSAdmin>
- D. <LocalAdministrator>

Answer: A
