## IBM

Visit: <http://www.pass4sureofficial.com/exams.asp?examcode=000-173>

Pass4sureofficial.com is a reputable IT certification examination guide, study guides and audio exam provider, we not only ensure that you pass your 000-173 exam in first attempt, but also you can get a high score to acquire IBM certification.

If you use pass4sureofficial 000-173 Certification questions and answers, you will experience actual 000-173 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our IBM exam prep covers over 95% of the questions and answers that may be appeared in your 000-173 exam. Every point from pass4sure 000-173 PDF, 000-173 review will help you take IBM 000-173 exam much easier and become IBM certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial IBM 000-173 course:

- \* Up-to-Date IBM 000-173 questions taken from the real exam.
- \* 100% correct IBM 000-173 answers you simply can't find in other 000-173 courses.
- \* All of our tests are easy to download. Your file will be saved as a 000-173 PDF.
- \* IBM 000-173 brain dump free content featuring the real 000-173 test questions.

IBM 000-173 certification exam is of core importance both in your Professional life and IBM certification path. With IBM certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-173 exam training are an absolute favorite in the industry. You will pass IBM 000-173 certification test and career opportunities will be open for you.

<b>Exam Name:</b>	<b>BPM Blueprint; IBM WebSphere Lombardi Edition V7.1, Application Development</b>		
<b>Exam Type:</b>	<b>IBM</b>	<b>Exam Code:</b>	<b>000-173</b>
<b>Certification</b>	<b>IBM WebSphere</b>	<b>Total Questions:</b>	<b>72</b>

**Question: 1**

A Process Owner requires that a particular process begins with three independent system tasks. The Web Sphere Lombardi Edition business process diagram and other assets should be designed for easy readability by non-technical team members. There is also a technical goal to consume as few system resources, such as CPU time, as possible. What is the most effective solution to meet all three requirements?

- A. Start the BPD with a split into three system lanes for the three system tasks.
- B. Start the BPD with a nested BPD step containing the three system tasks.
- C. Start the BPD with a simple loop step to run the three system tasks sequentially.
- D. Start the BPD with a Service step containing nested Service steps for the three system tasks.

**Answer: D**

**Question: 2**

A claim review process is required to wait for external processing of a claim to complete before the review process continues. However, the external processing of the claim may occur before or after the claim review process is initiated. Which Intermediate Message Event options must be enabled to meet the requirement?

- A. Consume Anytime
- B. Close Attached Activity
- C. Durable Subscription
- D. Receivable Anytime

**Answer: C**

**Question: 3**

A simple business process allows a school teacher to submit a proposal for a children field trip. Every proposal needs to be signed off by 3 out of 5A simple business process allows a school teacher to submit a proposal for children? Field trip. Every proposal needs to be signed off by 3 out of 5 other teachers in order for the trip to be funded. All the teachers perform their own research and then sign off on the proposal. How is this implemented in WebSphere Lombardi Edition?

- A. Use a Multi Instance Loop. Run in parallel with a Conditional Wait (complex) Flow Condition.
- B. Use a Multi Instance Loop. Run in parallel with a Wait for All to finish (all) Flow Condition.
- C. Use a Simple Loop. Set Loop maximum to a variable and create a JavaScript loop condition.
- D. Use a Simple Loop. Set Loop maximum to 5 and create a JavaScript loop condition.

**Answer: A**

**Question: 4**

Process instances can be started by firing a UCA associated with a Start Message Event and by using the WLE Web API. From within a running process, an Activity can create a new and separate process instance by using the JavaScript function startBPDWithName. What is a disadvantage of using the startBPDWithName JavaScript function to start a BPD process instance?

- A. The "Where Used" feature of the Authoring Environment won't find the JavaScript reference.
- B. It would be difficult to find out if the second BPD process instance started successfully at runtime.
- C. If there is an error before the first Activity is created it will not throw an exception back to the caller.
- D. It would be difficult to know the instance ID of the second BPD process instance at runtime.

<b>Exam Name:</b>	<b>BPM Blueprint; IBM WebSphere Lombardi Edition V7.1, Application Development</b>		
<b>Exam Type:</b>	<b>IBM</b>	<b>Exam Code:</b>	<b>000-173</b>
<b>Certification</b>	<b>IBM WebSphere</b>	<b>Total Questions:</b>	<b>72</b>

**Answer: A**

**Question: 5**

An external system is configured to integrate to WLE by sending the Event Manager an XML message via JMS. During testing, the integration is observed to fail. What would cause a failure?

- A. The event message XML does not include the Process App acronym.
- B. The event message XML does not include the UCA name.
- C. The event message XML does not include the Snapshot name.
- D. The event message XML does not include the JMS queue name.

**Answer: A**

**Question: 6**

A home loan business process requires an applicant? credit check be performed. The BPD has a large Applicant Data object that contains all the applicant information. Some of this data needs to be verified by external systems. The process interacts with one external system to verify applicant employment information and another system to determine their existing debts. These Activities are performed in parallel and flow to a Join. applicant employment information and another system to determine their existing debts. These Activities are performed in parallel and flow to a Join. The output of both Activities is the entire Applicant Data object. What will happen with the Applicant Data object once those Activities complete?

- A. The data from both objects will cause an error in WebSphere Lombardi Edition and no data will flow to the next Activity.
- B. The data from both objects will be merged by WebSphere Lombardi Edition and the merged object will flow to the next Activity.
- C. The data that gets to WebSphere Lombardi Edition first from one of the external systems will flow to the next Activity.
- D. The data that gets to WebSphere Lombardi Edition last from one of the external systems will overwrite whatever is there and flow to the next Activity.

**Answer: D**

**Question: 7**

The Remediate Product Delivery Failure Process requires notification from a transportation company that the delivery failed in order to start the process. What is the most effective way to implement this in WebSphere Lombardi Edition?

- A. UCA Listener receives the notification and fires an IME before the first Activity to send the first token to the Activity.
- B. Make the first Activity a system-based Activity that is integrated with the transportation system to receive messages and start the process.
- C. Use a Start Message Event to receive the notification from a listener and begin a process instance.
- D. Add an attached IME to the first Activity that listens for the notification and activates the Activity in the participant inbox.

**Answer: C**

**Question: 8**

Refer to the Exhibits.

## Pass4SureOfficial.com Lifetime Membership Features;

- Pass4SureOfficial Lifetime Membership Package includes over **2500** Exams.
- **All** exams Questions and Answers are included in package.
- **All** Audio Guides are included **free** in package.
- **All** Study Guides are included **free** in package.
- **Lifetime** login access.
- Unlimited download, no account expiry, no hidden charges, just one time \$99 payment.
- **Free updates** for Lifetime.
- **Free Download Access** to All new exams added in future.
- Accurate answers with explanations (If applicable).
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions, Answers and Study Guides are downloadable in **PDF** format.
- Audio Exams are downloadable in **MP3** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support 24x7.
